

CARDIOPULMONARY RESUSCITATION + AUTOMATED EXTERNAL DEFIBRILLATOR COURSE

The Cardiopulmonary Resuscitation with Automated External Defibrillator (CPR + AED) Course is a 4-hour programme designed to equip participants with the skills to effectively perform CPR and acquire proficiency in the use of the AED in a safe manner.

The course comprises of the following compulsory modules:

Module 1: One-rescuer and Two-rescuer Adult
Cardiopulmonary Resuscitation

Module 2: Use of the Automated External Defibrillator in Two-rescuer Cardiopulmonary
Resuscitation

Classes are kept small with a very favourable trainer to trainee ratio to ensure maximum hands-on practice time for every participant. Participants can be assured of minimal 'waiting around' time with our training methodology.

Participants will be required to sit for a theory and practical assessment for all modules. Upon successful completion of all requirements, an NRC-accredited certificate will be issued to all participants.

Course Fees

For healthcare VWOs and private nursing homes with portable subsidies under MOH:

\$6.42 / pax for Singaporeans / SPRs (include GST)

\$33.17 / pax for non-Singaporeans / non-SPRs (include GST)

\$58.85 / pax for any other Orgs (include GST)

Venue: Lentor Training Centre

33, Ubi Avenue 3, #03-11

Vertex Tower B, Singapore 408868
