Conversational

Hokkien for

Healthcare Staff

OVERVIEW

This course is designed for healthcare professionals who have little or no knowledge of Hokkien to communicate with patients and their relatives. The focus is on speaking and listening where accuracy and fluency will be stressed. Participants will also have an insight into Chinese culture, which is embedded within the language contexts.

COURSE OUTLINE

Topics include:

- Pronunciation
- Common expressions
- Numbers – contact details, dates, time, money, temperature
- Asking basic questions
- Answering enquiries
- Basic body parts
- Common diseases and symptoms
- Giving instructions and directions
- Physical examination
- Common ward activities
- Consultation – history and present illness

LEARNING OBJECTIVES

At the end of the course, participants will be able to:

- converse in simple Hokkien with patients and their relatives
- understand patients' concern
- answer enquiries

TEACHING RESOURCES

Course materials include textbooks and handouts
